

Hunter Valley Youth Express Future Direction Forum

Hunter Valley Youth Express Future Direction Forum will focus on identifying the future direction for Hunter Valley Youth Express as an organisation.

Many resources and programs have been developed in partnership with schools over the last 10 years. The forum will

- Identify existing resources, opportunities and expertise that has been developed over the last 15 years.
- Develop a strategic plan for these resources post 2010
- Set a plan for Hunter Valley Youth Express roles and relationship with schools beyond 2010
- Identify an ongoing membership model for Hunter Valley Youth Express

Input from all school partners is very important to ensure equitable decision making across our members schools.
